It is sometimes difficult to remember that even the strongest political parties had meager beginnings, struggling for recognition and power. Money is a necessary ingredient of that struggle, helping to ease the pain and worry that accompanies the climb to the top. But those who give the money need incentives or some sort of reward for their contribution — tokens and medals for example.

Even a party in power must still seek its share of monetary support to retain its position of influence. The collector interested in political financing could collect the coinage of the relevant period and country, but he would learn little of the political party or its attemps to raise funds. Instead, he must rely upon the various objects used as incentives, receipts, or rewards for the contributor.

This article concerns itself with those items of one political party — the National Socialist German Worker's Party (NSDAP) — which fall within the collecting interest of the exonumist.

The NSDAP was an expensive party to support. Before coming to power in January, 1933, party finances had to cover expenses generated by 10,000 local groups, prima donna party functionaries, a 500,000 man private army, and numerous local, state, and national election campaigns. In 1932 alone, the party budget ran somewhere between 70 and 90 million marks. The primary source of party income was the one mark monthly dues collection of the local party units, ten percent of which was forwarded to the national party.

However, dues payments were notoriously irregular, as many members suffered under the economic hard times and failed to maintain the payments. The party turned to other sources of income to supplement the precarious financial base. Money was raised through the sales of party newspapers and literature, admission charges to

and
R. W. Colbert, TAMS #2418

meetings, and collections. When public collections were banned, as they sometimes were, the collection plate would be passed under the guise of sales of postcards, pictures of Hitler, tokens, etc. Somehow, the party managed to stay one step ahead of its creditors.

Bodies were almost as important as money in those days. Overlooking the nonpayment of dues did not help the unfortunate party member suffering even more extreme poverty than the party itself. While party funds were used primarily to support the party's needs, a small portion was sometimes diverted to meet the needs of the party membership.

In April, 1931, the Gau (district) leader of Munich-

Upper Bavaria, Adolf Wagner, organized an SA Winter Help campaign for unemployed SA men. The much needed aid took the form of food collections, special kitchens and cheap cigarettes. In addition, homes were found for people to stay in overnight, and in other areas the party raised money to help buy party uniforms.

The charitable campaign was consistent with the NSDAP claims to leadership out of the economically hard times under which the German population was struggling. Wagner's campaign was expanded to a national program in the Fall of 1933. Winter Help Work, as the program was known, became the chief public fund raising campaign of the party from 1933 on. Proceeds were used to provide food and clothing for those in need.

Winter Help Work drives ran yearly from October to March. Money was raised through voluntary wage deductions, donation collections, and special collections on the monthly "Sunday of the One-Pot Meal" (food money saved was to be donated to the WHW) and the Day of National Solidarity. The drive also included monthly food and clothing collections and the sale of Winter Help Work tickets, badges, and tokens. Such items served as receipts for donations. Most of the items were produced in local industries in keeping with the spirit of Winter Help Work (in this way employment was provided in the smaller businesses).

Normally the "receipts" were meant to be worn to show that one had, in fact, contributed. Not only did this "protect" against more than monthly solicitations, but it also protected against ridicule and public scorn for refusing to aid those less fortunate. (This might also explain why very few of the earlier Austrian WHW tokens are designed to be worn. The public pressure to donate to a German charity would not have been present in a non-Nazi state.)

The Winter Help Work campaigns were also used as political referendums of the people's support for Hitler's regime. The more money collected, the greater the propaganda value. Winter Help Work was to later become War Winter Help Work, with the collections going to aid the soldiers on the Russian front in their battle against the fierce Russian winters.

The listing which follows includes both political donation tokens and Winter Help Work donation medals, tokens, and badges. The catalog cannot be considered complete; undoubtedly many other items exist, but are not known to the authors. Excluded entirely are the WHW badges used throughout Germany by the Federal Street Collection. (These have been catalogued in *Spenden Abzeichen Des WHW* by Harry Rosenberg. One interesting series of the Federal Street collection was also covered in "The Great Ones in Glass" by Charles E. McEntire; *TAMS Journal*, August 1971.) Instead, we have listed only those WHW pieces used in district collections under district control and internal collections of such groups as the SA and the SS. Tokens not indicating a donation or value have, with a few exceptions, been excluded. The listing is roughly chronologically ordered, although the order is often based upon the author's best guesses, and is sometimes random.

The Early Tokens, Pre-1933

The early tokens are distinguished by two main themes, the primary and most obvious of which is Adolf Hitler. The party's early propaganda efforts were aimed at establishing Hitler as the "Fuhrer" or leader. The leadership principle was the key to Hitler's domination of the NSDAP and, later, Germany. Leadership did not, however, imply domination. Rather it referred to a philosophy in which the will of the people, the state, and the party were embodied in one man: the Fuhrer. These tokens helped to establish Hitler's image in the eyes of the people.

The second predominant theme is that of the climb to the top. Donations are referred to as building stones and battle contributions. Money was very difficult to come by and was, in fact, a form of building stone for the struggling or battling party. "Battle" aptly refers to the struggle of the NSDAP in the pre-1933 period. Every new supporter, every new vote was earned by countless hours of hard work by the membership (not excluding a few broken bones and cracked heads as well). The election donation tokens and cards also fall into this category. The numerous elections of 1932 probably would have driven the party into bankruptcy if it were not for Hitler's appointment as chancellor in early 1933.

Reverse: Multitude of hands raised in "German greeting" or Nazi salute distributed around a large swastika. There is also a hallmark near the rim at 7 o'clock.
The edge is stamped "990." 35.5mm Gold-plated

The First Year — 1933-34

Hitler was appointed chancellor Jan. 30, 1933. The NSDAP was ill prepared to assume leadership of the nation, but Hitler still went ahead with plans to place party members in positions of leadership throughout the national, state, and local governments. Continued membership in the party did not, however, guarantee a continued position of leadership. Many new members were recruited that first year, primarily for their administrative skills. Therefore, when the Winter Help Work program started, the "old fighters" (those who had been with the party in the lean years) sought to prove their worth and their rank. The WHW pieces in this section refer to Hitler's thanks for contributions. Undoubtedly,

they were used as a vain indicator of rank. (See, for example, D-28, Carl Rober dispensing Hitler's personal thanks.)

The final two tokens of this section are not WHW pieces, but honor instead the German worker. They are related to the WHW theme in that is was the worker who had suffered from the earlier economic troubles of Germany. The working class had perhaps the most to gain from Winter Help Work.

Austrian Revolution, 1933-34

This short section focuses on the party struggle in Austria, where the situation differed drastically from Germany. Not only had the voters refused to honor the party with votes, the government refused to recognize Hitler's ties with Austria (he was born there, as noted on D-37) and outlawed his NSDAP on June 19, 1933. The party attempted a premature rise from oblivion to power through violent revolution. Although unsuccessful, the Austrian Nazis did manage to assassinate Austrian Chancellor Dollfus during the July 25 uprising. Thirteen of the revolutionaries were hanged for their part in the conspiracy.

The Austrian SS

The following tokens speak for themselves. The flying eagle with swastika and the skull and crossbones were the symbols of the SS and are familiar to most. The slogan, "my honor is loyalty" does require a word of explanation. It dates back to the 1930 German Reichstag campaign. The SA, growing tired of the political organization ordering them to work and claiming all the rewards, attacked the elite SS. Only the appearance of Hitler ended the battle. At that time the SS received the watchword from Hitler: "Your honor is loyalty!"

The Saar Returns Home

Hitler's master plan called for establishment of the Greater German Empire, encompassing all German speaking people of Europe. The Saar was a symbol of this ambitious goal. The rich industrial territory of the Saar had been claimed by France following World War I, and Hitler now sought its return to Germany. In a January 13 plebiscite, 477,119 Saar voters voiced their desire to rejoin Germany. A mere 21,124 voted to remain under French jurisdiction. The Saar was officially returned to Germany on March 1, 1935. The following Austrian tokens express the desire that Austria likewise follow the Saar and become a part of Hitler's empire. With the exception of the first SA token, they feature industrial motifs in keeping with the theme of the Saar.

D-43

D-43
Obverse: Swastika rising over horizon. The inscription reads, "Die Saar ging heimwarts zu. / Ostmark bald folgst auch du" or "The Saar returns homewards. Austria, you will soon follow."
Reverse: SA symbol with value, "EIN SCHILLING" (one schilling), below.

Winterhilfe, 1935-40

With a few exceptions, the final and longest section is composed of Winter Help tokens. The most interesting group includes the tokens from D-65 to D-70, with their symbolism of the one hand dropping wheat shafts into the other hand appropriately conveying the purpose of Winter Help Work. For those interested in errors as well as tokens, be sure to note D-66 with planchet clip.

D-49

PETER F. HAMILTON P.O. Box 5542 San Mateo, CA 94402

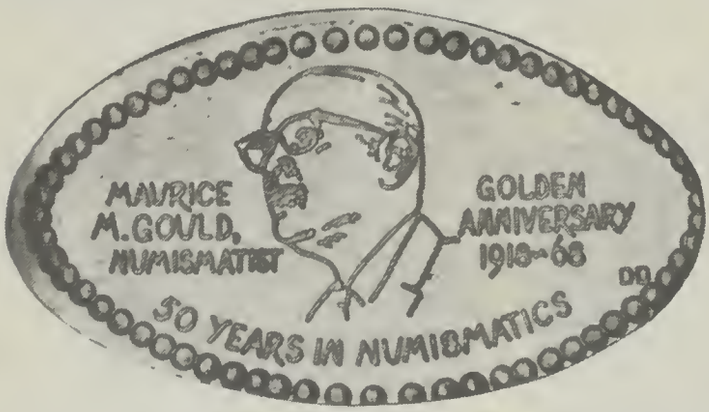
dotties: dots. . . :

I dedicate this column to a man who was a Professional Numismatist for over 50 years. When he asked me to make up an elongated coin, back in 1968, to celebrate his Golden Anniversary in Numismatics, I was deeply honored.

When Maurice M. Gould, Board member of the Token and Medal Society, passed away on November 29th, 1975, he left a big hole in the "Who's Who" of Numismatics. Always smiling, laughing, joking, learning, teaching. Maury, we will miss you.

I know of no phase of numismatics that, at some time or other, he did not collect and research in depth. He was known Nationwide for his expertise as a Numismatic author and lecturer. He had articles on coinage in newspapers and magazines throughout the country.

In any club Maury was a member, he was not just a by-stander, he became an integral part of that organization. He held more offices, in more numismatic clubs, than any other numismatist I know of. Sometimes at the ANA Conventions, he would have had to have been triplets, in order to attend all the meetings he was an officer of.



Among his many achievements were: Life Member, and on the Board of Governors of the American Numismatic Association; President and Chairman of the Board of the Society of Philatelists and Numismatists (SPAN) — he was SPAN's "Man of the Year" in 1971; A member of the 1974 United States Assay Commission; A founder of the Numismatic Literary Guild; California State Numismatic Association Symposium, and of the Counterfeit Detection Seminar held annually at California Polytechnic University; Vice President of American Israel Numismatic Association and a director of Canadian Numismatic Association; Editor of the N.A.S.C. Quarterly. He served as Numismatic instructor at Boston Center for Adult Education, Massachusetts Institute of Technology, and Long Beach City College. He was an advisor to accredited course in numismatics at the Department of Continuing Education, Roosevelt University, Chicago; Past President of Organization of International Numismatists (OIN) and one of its founders. And oh so much more!

Maury was a member of more than 50 numismatic organizations and an honorary member of 17. He had received more than 20 numismatic literary awards, including the Numismatic Literary Guild's "Best Syndicated Columnist" in 1972 and 1974. He was also recipient of Bertha Weisz Memorial Award for "Best Syndicated Coin Column".

And I'm sure Maury would have had me add, "And I couldn't have done it all, without the constant love, help and devotion of my wife Jean".

We loved you Maury, and we love you Jean.

P.S. Due to my Presidents Message for the December Issue, being lost in the mail, I turned my page over to Virginia Culver to be able to officially resign as your Journal Editor.

I had completely forgotten that in that letter I had written about nominations. Here it is again (for those of you that didn't remember them). My apologys for being late. Not being able to drive for two months because of multiple fractures of my right foot, sure did tie me down.

In accordcance with the By-Laws, I am issuing a call for nominations for officers and board members to serve the term from August 1976 to August 1978. Nominations are to be made in writing and submitted to the Secretary, Dorothy Baber, 611 Oakwood Way, El Cajon, Calif. 92021, between January 1st and March 1st, 1976.

To be nominated are President, 1st Vice-President, 2nd Vice-President, and ten Board members. Board nominees must be members in good standing. Nominees for President and Vice-President must also have served at least one term as a member of the Executive Board. Past-presidents cannot be candidates for the offices of President or Vice-President.

In order to be a candidate for office, a member must receive nominations from ten members in good standing. No member can nominate himself. No member can nominate for office a number of candidates in excess of that to be elected for said office.

Nominees will be notified by the Secretary and must accept in writing not later than March 10th, 1976. The June issue of the Journal will publish a list of the nominees with a short biography detailing their service to the Society and to numismatics. Ballots will be mailed to the membership prior to July 1st. Members must return the ballot in the official envelope at least 20 days prior to the annual membership meeting.

Please do not submit names for candiates for officers of TAMS, unless that person can attend the annual TAMS meetings.

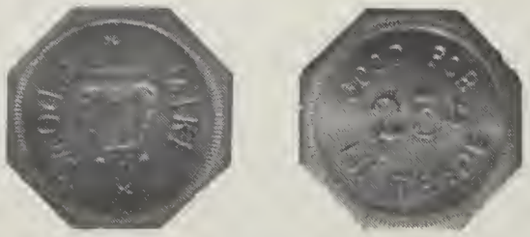
SELDOM SEEN TOKENS

Melvin Fuld
TAMS #5



ST. PAUL, MN.

OB: Around, MIKE * O'DOWD * In center a harp.
RX: In three lines, GOOD FOR / 25¢ / IN TRADE/
COMPOSITION: Brass. SIZE: 25 mm., octagonal. Plain edge. ISSUED: 1954. RARITY: 6.

The above maverick No. 4790 was identified by R. HERBERG, Daly City, CA. Mr. Herberg gives the following: "Mike O'Dowd was World Middleweight Champion from 1917 to 1920. He had a bar at 391 Robert St. in 1951 and later had a bar at 182 North Western Ave. in 1954. He was also the owner of the Mike O'Dowd Novelty Company, 23 West 10th St. in 1941. The token I have is white metal with a 3-stringed harp in the center. I don't know where this was used. This info came years ago from Cal Woods."

The token was manufactured by Wendell Northwestern. We obtained the piece with a number of others all which were manufactured by Wendell in 1954.

We publish the token because no pieces of fighters were ever published, although there are a number of collectors who collect this type. We are grateful to Mr. Herberg for the above information.

BILLIARD ACADEMY, MAVERICK

OB: Around THE BILLIARD ACADEMY, hole in center
RX: Same.
COMPOSITION: Copper. SIZE: 21mm

Being the same size as a 5¢ piece it was used as an amusement token.

BUCKEE HOUSE, MAVERICK

OB: Around BUCKEE HOUSE .*., in center 5
RX: In center 5, surrounded by a border of stars.
COMPOSITION: Brass. SIZE: 24mm. ISSUED: ea. 1900

ALTAMONT, KY.

OB: Around: ALTAMONT COAL Co. ALTAMONT, KY. Ince nter 5 with rays
RX: Around MINER'S ORDER. FOR MERCHANDISE. In center within ring figure of miner going to work
COMPOSITION: Copper. SIZE: 17.6mm.

Listed by Caldwell TAMS #1308 in *Coal Company Scrip*-18 A.mfg. unknown Rarity C ($1.00-1.50). The die work is very similar to the work of Dorman, Baltimore and could have been made by them.

LILLIAN, ALA.

OB: SEMINOLE TURPENTINE CO. / / COMMISSARY / / LILLIAN, ALA. /
RX: GOOD FOR / $ 3.oo/ - in - / MERCHANDISE / NOT TRANSFERABLE /
COMPOSITION: Brass. SIZE: 34.8 mm.

Naval store tokens are scarce, and we see few of them. Alabama is another state that has a quantity of naval store companys.

This piece is very well struck.

PHOENIX, ARIZONA

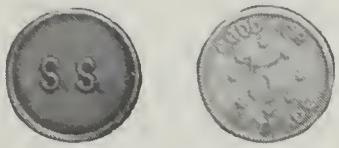
OB: Around: COREY BR. DIGGERS *, In center PHOENIX / ARIZONA
RX: In three lines: GOOD FOR / * 5¢ * / IN TRADE.
COMPOSITION: Brass. SIZE: 21mm

This piece is of legal 5¢ size. The owner consulted H.C. Schmal, TAMS 379 who believed that these types were used in so-called "claw" machines (Modeled after large loading and construction type of heavy equipment). Supposedly a game of skill; operator tries to pick up various prizes — wrist watch, camera, lighter, etc. The tokens were purchased for 5¢, where it was illegal to use coinage. Being of legal size it could have been used in any vending or amusement machine.

MOVIE MAVERICK

OB: In three lines: BARBER'S / MOVIE / POINT
RX: Same
COMPOSITION: Nickel SIZE: 22mm.

This Movie Token shown through the courtesy of Gordon Medcalf, TAMS 69.



MOLAD, IA.

OB: S. S.
RX: GOOD FOR / 5 with eight stars around it / IN TRADE /
COMPOSITION: Brass. SIZE: 15.0 mm.

This maverick was identified as being from Molad, Ia. by Keneall Ballard, TAMS 1723.

The token was submitted to us as a miniature. Strictly speaking any piece that is 16.0 mm or less is a miniature, however, we collect only those miniatures that are, model money, play money, game counters and the like.

We have listed miniatures of the world in a SIN publication C.O.I.N. #49. In the 3rd Edition of *British Commonwealth* by Remick, James, Dowle and Finn we listed the British miniature.

CAKE MAVERICK

OB: Around border, SIEGEL COOPER CO. * CAKE * /
RX: In center, an eight pointed star.
COMPOSITION: Copper. SIZE: 24 mm. Plain edge. RARITY: 3.

This piece was sent in by Roccoc Glacommo, Mt. Holly, NJ.

With the great interest in cake and bread tokens we thought that some collector of these pieces might identify it for us.

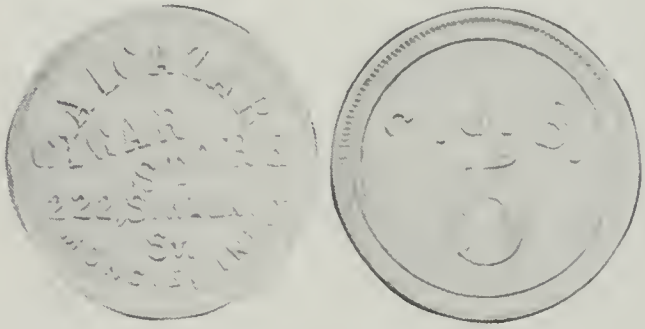
SEWANEE FUEL & IRON CO. COALMONT, TENN.

OB: Around, SEWANEE FUEL & IRON CO. ***. IN field, COALMONT, /-*-/ TENN.
RX: GOOD FOR /- - / 25¢ / IN / MERCHANDISE.
COMPOSITION: Brass. SIZE: 28.3 mm. ISSUED: 1910.

OB: Same as above.
RX: GOOD FOR / 50¢ / IN MERCHANDISE.
COMPOSITION: Brass. SIZE: 32.0 mm. ISSUED: 1910.

Sewanee Fuel & Iron Co located in Grundy County, Tenn. These pieces not listed in Cadwell. However, Dodrill lists them as well as two additional pieces. SF&I Commissary at Coalmont and Sewanee Coal & Land Co.

We have not seen the two tokens Dodrill lists and they are no doubt scarce pieces. Coal script is becoming a very popular series and no doubt some readers will list their rare tokens.



MUNCIE, IND.

OB: In six lines: ALCAZAR / CIGAR / STORE / 222, S. WALNUT / ST. / MUNCIE, IND.
RX: In two lines: C.J.B. / %5.
COMPOSITION: Aluminum. SIZE: 24 mm.

Rather scarce piece, owner paid $4.50 for it.

BIRMINGHAM, AL.

OB: Around border, BIRMINGHAM 1871-1971 CENTENNIAL/ In center series of buildings with a workman with raised right arm a tool in right hand, another tool in left hand. Below a scroll with a cat at each end, on scroll: CENTURY OF MAGIC
RX: Around border, BIRMINGHAM CENTENNIAL ARLINGTON / In center a building.
COMPOSITION: Nickel-silver. SIZE: 34 mm. Plain edge. ISSUED: 1971. RARITY: 1.

An excellent piece, very well executed and superb striking. It no doubt shows the magical development of Birmingham.

ARTICLES ON TOKENS IN NON–NUMISMATIC PERIODICALS

by Edgar Heyl, TAMS 927

In order to find what has been written on tokens of various types, one must consult many bibliographies, catalogs of numismatic libraries, and indexes to periodicals in the field.

For the most part these works deal with — aside from books — articles that have appeared in exonumian and numismatic periodicals. Yet much material on tokens has appeared in magazines that would appear to be unlikely sources for such information. Journals dealing with art, antiques and economics, to cite just a few, as well as those issued by museums, historical and other learned societies, have carried articles covering a wide variety of exonumian subjects. The greater part of this material has not been listed in the numismatic reference books.

It was because of this that a search was undertaken to locate as much of this material as possible and to present it in a usable form. When a cut-off point was reached, the material checked against quite a few of the standard bibliographies and library catalogs. It was determined that less than two dozen of the articles had already been recorded in the literature, and these were eliminated.

The articles deal with tokens issued, for the most part, in America, Great Britain, France, Belgium, Germany, Italy, Canada and Australia over a period of many years. While I am not under the illusion that everything of this type has been located, this is still a corpus of information that, it is hoped, will provide leads of value to exonumian researchers.

The arrangement is alphabetical by author (or the first significant word of the title of an anonymous article), followed by the title, the name of the periodical in which it appeared, the volume and date of issue (in a few instances not all of this could be determined), and the page on which the article begins. To simplify use of the list, a concise subject index has been appended.

FORT WAYNE (INDIANA) BICENTENNIAL MEDAL

The official Fort Wayne (Indiana) Bicentennial Commission medal is being announced. Depicted on the obverse is General "Mad" Anthony Wayne looking at Miami Indian Chief Little Turtle, plus part of the old 1812 fort and an unusual deep cut representation of the three rivers of Fort Wayne. The reverse is the attractive official Fort Wayne Bicentennial logo.

The medal was designed and sculpted by Hector Garcia of Fort Wayne, and was struck by the Medallic Art Company of Danbury, Connecticut.

The 1½" diameter medal is $6.50 in bronze, and $600.00 in 18K gold. Sterling silver was limited to 100 and was immediately sold out, and gold to just three.

Write: Fort Wayne Bicentennial Medals, P.O. Box 7247, Fort Wayne, IN 46807.

BELIEVE IT OR NOT

I recently acquired an accumulation of 322 tokens and miscellaneous coins mounted on a 34" x 34" board which was covered with green felt. The tokens were affixed by driving tiny nails around them into the board. The Cross of Malta was the design used.

The gentleman who formed this hoard died in 1886 and it has been hidden in an attic up until recently. I wish to sell the Low and Wright listed tokens which were on this board plus 3 Colonials, 2 Feuchtwanger Cents, an 1837 Half Cent, etc., as a lot. However, I will consider offers on single items that may attract your fancy. A listing of the 71 Low — 169 Wright and 9 misc. tokens will be sent upon receipt of 50¢ to cover costs. For an additional 50¢ a Polaroid picture of the Maltese Cross board will be sent. (cost on both items.) I list herewith some of the scarcer items, plus a list of the Uncirculated items by Low and Wright Nos.

Scarce and Rare

Low #6, 7, 14, 180, 87.

Number 7 brought $275.00 in a recent auction and Number 87 has sold for $300.00 at auction. Wright #1472, 232, 1083, 1357, 784 w/o Rays, 805 die trial thin brass Uniface, 867 with brass obverse and copper reverse.

The following are Uncirculated from Unc. 60 to blazing red Gem. Low Nos. — 19, 20, 31, 47, 51, 54, 58, 60, 64, 67, 180, 141.

The following are Unc. as above. Wright Nos. - 9, 62, 82, 83, 88, 64, 179, 192, 232, 262, 332, 333, 334, 393, 434, 447, 458, 507, 517, 636, 678, 700, 716, 754, 784, 801 Brass, 801 Copper, 820, 866, 867, 889, 914, 922, 944, 998, 1040, 1073, 1096, 1224, 1246, and 1472.

Some of the above are truly hard to find outside of a collection in such nice condition. The remaining pieces are gaming tokens, Canadian tokens, political and misc.

INGLE SYSTEM TOKENS OF ILLINOIS

The February, 1972, issue of the TAMS Journal contained a listing of Ingle System tokens, along with pertinent information by Walter Caldwell.

Limited to non-coal company tokens ordered from November, 1918, to November, 1963, the list included eight Illinois merchants. The following list has been prepared by adding those eight to the identified Ingle tokens in my own collection.

Each of the tokens listed here has been positively identified as to location. Brackets around a name indicate that the token has not been seen, or the name does not appear on the token.

Correspondence is invited from persons having additional Illinois Ingle tokens or pieces of different denominations. The author is aware that this list barely scratches the surface, as hundreds more surely have been used throughout Illinois.

FROM THE BOOKSHELF

Requests to borrow books, or for library information should be addressed to: Mrs. Irene Alexander, TAMS LIBRARIAN, at P.O. Box 11555, Parkwater Station, Spokane, Washington 99211. Please include your TAMS membership number and your complete mailing address, including Zip Code. Happy Collecting!

Your Librarian has another P.O. box number change. I had to rent a new and larger box to accommodate my mail. Please use P.O. **Box 11555**, Parkwater Station for all book requests, etc. Thanks.

Response to the recent Library Catalogue has been gratifying, and many of you have really been using our library material. Other members, also, could find much of interest to enhance your knowledge of the things you collect. Books most in demand are moving right along, with just a few on the waiting list.

Member Sam Ruggerri has thoughtfully and graciously Xeroxed B-12a, C-58, C-59, K-17, and M-35, and donated them so we may all benefit. We are grateful to him and to each of the other persons and organizations who have donated the material listed below, for your reading pleasure:

LIBRARY CATALOGUE ADDITIONS

A-2 American Numismatic Association THE NUMISMATIST Vol. 88, #11 November 1975. Features Part 1 of "The Pickelhaube Medals of Napoleon III", by Richard E. Dickerson and W.G. Schulze. 18 pp illus. An introduction and catalogue listing of the satirical Pickelhaube or German Helmet medals of Emperor Napoleon III, which were issued soon after his defeat at Sedan in 1870. Fascinating descriptions and illustrations of this extensive series. Issue #12, December 1975 concludes this article, with 16 more pp illus. This issue also includes a 6 pp illus. article concerning the sculptor and medalist Robert A. Weinman, as written by Ed Reiter.

A-12 American Numismatic Association CLUB BULLETIN Issue of November and December 1975.

A-14 American Numismatic Society MUSEUM NOTES 20 1975 174 pp, plus 26 plates. Some very interesting reading behind this dull title.

A-21 American Tax Token Society A.T.T.S. NEWSLETTER Vol 5, number 5 November - December 1975. 6 pp illus. Features article "Varieties of Some Arizona and New Mexico Sales Tax Tokens", by William S. Heald. Two copies.

B-12a Bowman, Fred TRADE TOKENS OF ONTARIO 2nd Edition 1972 Published under the auspices of the Canadian Numismatic Research Society. 56 pp illus. A Xeroxed copy of this splendid catalogue and guide for those interested in Ontario's many trade tokens.

C-10 California Exonumist Society THE MEDALLION Bi-monthly official Bulletin Vol. XV, numbers 1 thru 6, all issues for 1975, averaging 4 pp illus. Articles and club news, from the organization which first used the term "Exonumists" for collectors of numismatic items other than coins.

C-23 Civil War Token Society JOURNAL Vol. 9, #4 Winter 1975 28 pp illus. Articles, auctions, and outline for proposed new Catalog of Patriotic Civil War Tokens 4th Revised Edition.

LA MARSEILLAISE

A Medallic Tribute to French Composer Claude Joseph Rouget de Lisle

Many medals have been struck in honor of authors, composers and musicians, but few — if any — carry the tribute beyond a graven image of the subject and a brief listing of his statistics and/or accomplishments.

One stands out by contrast, because it presents to view not only the likeness of a composer, but the words and musical score of his most famous work.

French author Claude Joseph Rouget de Lisle was one of those authors who achieve fame by a single work. Born May 10, 1760, at Lons-le-Saunier, he entered the army as an engineer and attained the rank of captain.

The song that brought him immortality was composed at Strasbourg, where he was quartered in April, 1792. In a fit of patriotic fervor after a public dinner, he wrote the words and music to the *Marseillaise* as a marching song for soldiers of the Army of the Rhine. Originally published under the title, *Chant de Guerre pour l'Armee du Rhin,* the work later became inseparably associated with the revolution. Rouget de Lisle himself was a Royalist and narrowly escaped the guillotine.

It was the Provencal volunteers, whom Barbaroux introduced into Paris and who were prominent in the storming of the Tuileries, who adopted the song and gave it the name, *Marseilles.* Rouget de Lisle, a moderate republican, was cashiered and thrown into prison, but the counter-revolution set him free.

The stirring melody of the *Marseillaise* and its ingenious adaptation to the words serve to disguise the alternate poverty and bombast of the words themselves:

"Arise, ye children of the nation,
The day of glory now is here!
See the hosts of dark oppression,
Their bloodstained banners rear —
Their bloodstained banners rear!
Do ye not heed, Roaring the tyrants go,
Scattering homes and peace;
Our sons, our comrades face the foe,
The wounds of war increase.
To arms! Ye warriors all!
Your bold battalions call!
March on, ye free. Death shall be ours
Or glorious liberty.

(First stanza, English version by Florence Attenborough)

Rouget de Lisle wrote a few other songs in the same vein, and in 1825 he published *Chants Francais,* in which he set to music fifty songs by various authors.

He died June 26, 1836, at Choisy-le-Roi.

st. louis public school

Since my article on St. Louis public school lunch checks appeared in the April, 1974, TAMS Journal, several new items of interest have been discovered.

Perhaps the most important is a McKinley High School token, with reverse bearing the manufacturer's stamp, the Haskell Engraving Co., doing business at 1006 Pine St. from 1899 to 1909. The obverse legend is MCKINLEY HIGH SCHOOL / LUNCH / 5¢ /ROOM / ST LOUIS MO. On the reverse appears HASKELL ENG. CO. / 1006 PINE ST. / ST LOUIS MO. The aluminum piece measures 26mm and has no center hole.

Another token, used in the 1950s to purchase milk, specifies either a Type A or Type C meal, but, according to local authorities, there never was a Type B meal. The aluminum, oval piece is 30mm by 21.5mm and has no center hole. Obverse inscription is BORAD OF EDU— CATION / — / CITY OF ST. LOUIS, MO. Reverse specifies TYPE / "C" / MEAL.

Two new series of meal tickets were introduced in the fall of 1973. Series three differs from series two in that WEEKLY MEAL TICKET TYPE A LUNCH appears in two lines, a serial number is placed vertically on the right, and the bottom is divided into five tear coupons reading — in large block letters: MON TUE WED THU FRI.

COLLECTOR HAS GONE TO THE DOGS

F. Gordon Smith, collector of K-9 dog license tags, claims to have enough of these interesting pieces to license nearly 4,000 dogs . . . both U.S. and Foreign breeds. The oldest tag Gordon has in his collection is a foreign model issued in 1799. Oldest U.S. piece is 1880.

Any of our readers who have dog license tags in their collections that might be older please write F. Gordon Smith, 6 Bahia Lane, Mission View West, Oceanside, CA 92054.

CANADIAN MEMBERS

Some of our Canadian members have written saying that they haven't received their October issue of the Journal. The reason is probably due to the fact that the Canadian postal authorities were on strike when that issue was in the mails. If you did not receive the October issue please write TAMS secretary, Dorothy Baber, 611 Oakwood Way, El Cajon, CA 92021.

NOMINATIONS SPECIAL NOTICE

The closing date for the acceptance of nominations for the 1976 Token and Medal Society election has been set back from March 1 to April 1 as a result of the late release of this issue of the TAMS Journal which presents the call for nominations. Ten days after the closing date (April 10) nominees must notify TAMS president Dottie Dow indicating whether they will accept or reject the nomination.

The editor and officers regret any inconveniences caused by the late appearance of this and the last 1975 issue of the Journal, which delays were unavoidable as a result of the move of former editor Virginia Culver and the subsequent change in editors. It is anticipated that the April issue will appear on schedule.
